Favorite food: my mam's cooked beans (fasolada)

Hobbies: tennis, biking, dancing

Professional interest: Public Health issues, Food Systems and Psychobiology of food

Languages: Greek, English, Spanish, French

Why did you decide to join ENDietS?

I feel that through being a member of ENDietS team I will develop myself not only as a professional but also as a person. I like challenging myself with new experiences. I know that I will learn a lot as far as my profession is concerned since I will be surrounded by many experts. That way I will gain a lot of knowledge and confidence so I can help the world become a better place to live on. What is more, I love meeting new people and exchanging ideas and beliefs.

What would you like to achieve as an anchor?

As an education anchor I would like to spread the importance of the ongoing knowledge. Enriching our program with more speeches on interesting and important issues will be one of my main goals. I am really happy that I can serve in empowering dietetic students internationally, develop activities and promote interaction between students concerned about food and nutrition.
