The Netherlands

Dear the president of EFAD,

We would like to ask you to invite by email to your members to participate in an on-line consensus survey to define the optimal care for older people with frailty who are non-weight bearing after a lower limb fracture.

Copies of the invitation we would like to be sent, and the protocol, are attached.

This study is led by Professor John Gladman (Division of Rehabilitation, Ageing and Wellbeing, Medical School, University of Nottingham), funded by the NIHR Nottingham Biomedical Research Centre, and has obtained research ethics approval from the Faculty of Medicine and Health Sciences Research Ethics Committee/ Nottingham University (FMHS REC ref no 423-1911).

We would be pleased to discuss any queries you may have or help you may need. If you require any further information or clarification, please do not hesitate to contact Dr Saleh Aloraibi:

Saleh.Aloraibi@nottingham.ac.uk, preferred. Telephone: 44 (0) 115 82 30230, but due to working at home in response to Covid-19, this number is unlikely to be manned for some time.

Yours sincerely,

Study coordinator

Dr Saleh Aloraibi

Principal Investigator

Professor John RF Gladman
